

# Maestro Plus™

ice machine for healthcare applications

## Features

Maestro Plus ice machine with up to 425 lb (193.0 kg) daily production of Chewblet® or flake ice.

### High performance Maestro Plus ice machines

- compact, reliable ice machine for top mount installation
- stainless steel evaporator, auger and top bearing
- oversized, heavy duty, tapered roller bearing ensures long low-maintenance life
- automatic self-flushing of ice machine removes impurities
- no noisy harvest cycles means quiet ice production

### Lower utility bills

- energy-efficient, no costly defrost cycles
- 25% less energy than comparable capacity cube machines
- 40% less water than comparable capacity cube machines

### Maintenance and service benefits

- cleaning and sanitizing of entire machine takes less than 1 hour
- LED control board provides at-a-glance machine status

### Flake ice (MFD models) for clinical labs, rehab and medical research

- high surface area of flake ice chills quickly, maintains samples at desired temperature
- holds test tubes and lab vials securely, even when ice is melting
- molds well in ice bag and rehab applications for best skin contact and swelling control

### Chewblet ice (MCD models)

- preferred over cubes by more than 2:1<sup>1</sup>
- easy to chew
- more reliable dispensing than nugget or pellet ice
- slow melting, maintains drink temperature and quality, comparable to cubes
- higher displacement than cube ice

### Installation flexibility

- Harmony™ kits allow ice machine to be top mounted on most ice and beverage dispensers
- Harmony kits install without any alteration to dispenser (kit includes stainless steel top)
- compatible with over 20 of Follett's ice storage bins

### Warranty

- 3 years parts and labor, 5 years compressor parts
