

Ice Pro™ ice bagging and dispensing system

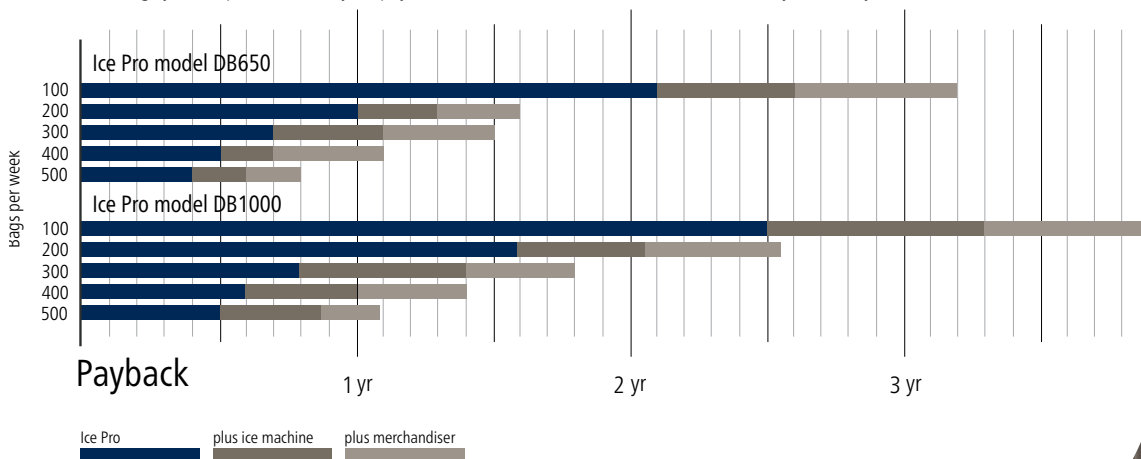

\$10,000/yr higher profit than buying packaged ice¹

- Reduces packaged ice cost from \$1 to \$0.25 a bag
- fill 6 to 8 bags per minute
- 85% faster than manually bagging
- Easy – dispenses at the touch of a button
- Safe – no bending into bins or scooping ice
- Sanitary – hands never touch the ice
- Reliable – ice on site, no worrying about deliveries

Fast payback²

includes the purchase of an ice machine and merchandiser!

Ice Pro starts paying you back as soon as it's installed. The more bags you sell, the faster you see a return on your investment. Based on the number of bags you sell per week, find your payback below. You can see an even faster return if you already own an ice machine or a merchandiser.

¹ Assumes 250 bags sold per week.

² Assumptions: Includes equipment, freight and installation at typical market prices. A second merchandiser and ice machine from 300 - 500 bags per week. Contact Follett for complete analysis.

Ice Pro™ ice bagging and dispensing system

Safest, easiest-to-use, most reliable system

- User friendly control panel minimizes training time
- Blower automatically opens bags for hands-free filling
- Independent agitation system prevents ice from bridging
- Lockable, clear window with interlock switches for easy inspection of ice level
- Dual-position dispense chute – fill bags or carts with the flip of a lever
- Accommodates most cube ice machines and Follett Chewblet® ice machines
- Adjustable bags stand accepts up to 20 lb (9 kg) bags – lifts off to fill coolers, containers and carts
