Wi-Fi Remote Monitoring

Follett refrigerators

REF20/25-PH

REF4P/REF5P

Description

Follett refrigerator with Wi-Fi based cloud communication functionality for continuous temperature monitoring and remote alarming. The network interface card (NIC) is a factory-installed option.

Features

- monitor real-time temperature information from anywhere
- log in from any computer or smart device
- get alerts via email, text or phone
- receive on-demand and scheduled pre-configured or customized reports
- take and document corrective action, when needed, for regulatory compliance and quality control
    - Log history available for active cloud service subscriptions
- manage one or thousands of units from one location
    - Alarm templates to notify the designated people for each unit
- cloud services provided in partnership with Dickson®
- subscription from Dickson required to access data on the cloud

Network connection requirements

- the NIC device requires an IEEE 802.11 b/g/n compatible Wi-Fi network to access internet
- the required FollettConnect app must be downloaded for the latest Apple (iOS)/Android software (free)
- support is provided for the latest and two previous versions of iOS/Android software needed to use the FollettConnect app
- working Wi-Fi router with access to internet is required to connect to DicksonOne to configure the network connection (subscription required)

Security

- the NIC device utilizes TLS to ensure a secure connection between the device and cloud server, and it supports the following encryption methods:
    - Open (shared) - Not recommended[1]
    - WPA PSK
    - WPA2 PSK/TKIP
    - WPA2 PSK AES
    - WPA2 PSK AES and TKIP

Certifications

UL CERTIFIED
Commercial Refrigerator
SAFETY US/CA – SA12646

Undercounter model configurations			
Nominal capacity	Controls	Hinge location[1]	Item number
3.9 cu ft	LED	right	REF4P-0R-00-00-N
		left	REF4P-0L-00-00-N
4.5 cu ft	LED	right	REF5P-0R-00-00-N
		left	REF5P-0L-00-00-N
