

Infinite Control When Every Degree Counts

Infinity Series™ Refrigerators and Freezers

Patented "infinite" variable speed control technology delivers only the precise amount of refrigeration needed at any given time for optimal temperature performance.

The use of a natural hydrocarbon, low GWP refrigerant supports environmental sustainability initiatives.

Reduced noise and energy consumption without compromising pharmaceuticals, vaccines and other valuable products requiring safe cold storage.

Tested and certified to NSF/ANSI 456 for safe storage of vaccines.

Interchangeable storage options to meet changing needs. Choose from shelves, baskets (refrigerators only) or drawers.

Available in the following sizes:
1, 2, 5 or 12 cu ft
(refrigerators only)

20 or 25 cu ft
(refrigerators and freezers)
