

Remote condensers

Horizon Elite™ Series

High capacity ice production. Quiet indoor operation.

Product overview

Follett Horizon Elite remote ice machines feature a remote condenser design that separates the ice-making head from the cooling unit, allowing quieter, flexible installations in busy or customer-facing areas by moving heat and noise outdoors.

Key benefits

- **Quieter operation:** Moves compressor noise outdoors
- **Reject heat to the outdoors:** Reduces heat load on HVAC systems
- **Higher performance:** Increased ice production, even in hot environments
- **Flexible placement:** Multiple mounting options for challenging layouts
- **Easy service access:** Simplifies maintenance without disrupting operations
- **Energy efficient:** Optimized for outdoor conditions and long run times
