Ice Machines Features & Benefits

Follett ice machines, bins, and dispensers are proudly made in South Korea to the highest standards of quality, serviceability, and performance. They will ensure a constant supply of ice, whether it be cube, half cube, nugget, flake, or gourmet, and come in a variety of configurations: modular, undercounter, and dispenser. Follett is proud to be a Middleby Company and strives to uphold its tradition of excellence in the food service equipment industry.

EASE-OF-USE

Follett ice machines are designed to be easy to access, clean, and repair

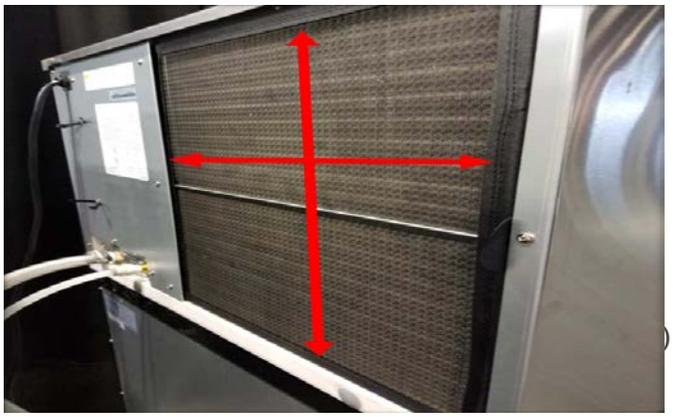

- Simple diagnostic panel to provide operating status and basic control
- Front panel is hinged for quick and easy access for cleaning and inspection, and can be removed entirely if necessary
- The side panels are also easily removable for complete access to the interior components from the front
- Stainless steel panels for optimum longevity and appearance

- Water curtain, pump, water trough, and float switch can all be removed easily by hand, no tools required
- Anti-microbial plastic parts are made of thick, strong ABS, with non corrosive base, for maximum durability, sanitation and cleanability
- Front diagnostic panel shows units working operation status, and diagnostics if unit shut down occurs.

- Electrostatic air filter on back of machine attaches by magnets and is easily re-moved by hand for quick cleaning and snaps back into place
- Automatic cleaning cycle is switch-activated

PERFORMANCE

Follett ice machines are designed to minimize downtime and delivery maximum production in all conditions

- 3-way ventilation exhausts from both sides and top panels
- This allows for improved air flow and noise reduction

- All units are tested for 3 cycles at the factory in Korea before shipping
- Follett units are easy to clean and provide labels with instructions inside front door with service data diagnostic information if needed

- Water flush is adjustable for hard water areas to help minimize scale
- Magnetic switch used to stop ice production when bin is full

CITRYNE

And don't forget our unique IcePro Citryne filter solution, which when used correctly can add an extra year to your warranty coverage.

COMMERCIAL WARRANTY

Ice Machines - Undercounters, Modulars
- 3-year parts & labor
- 5-year part & labor for evaporator
- 5-year part & 3-year labor for compressor

Ice Machines - Flake, Nugget, Ice/Water Dispensers
- 3-year parts & labor
- 5-year part & 3-year labor for compressor

Ice Storage Bins
- 3-year parts & labor

RESIDENTIAL WARRANTY

All Follett equipment, if installed in a residential setting:
- 1-year parts & labor
