

Ice for Workplace Hydration

CHEWBLET® ICE, WATER, AND SPARKLING WATER IN ONE DISPENSER

7 SERIES | 15 SERIES | SYMPHONY PLUS™

FOLLETT®

Innovative solutions, inspired by ice

Chewblet® ice, water, and sparkling water – Follett has an ice and water dispenser solution for every hydration need.

From its beginning in 1948, Follett has led the ice industry in manufacturing quality, innovative products. Follett ice and water dispensers exclusively feature Chewblet ice, a bite-sized nugget that adds a whole new dynamic to drinks. Enjoying iced coffees, teas, and other healthful drinks has never been more fulfilling.

With over 50 models to choose from, Follett makes an ice and water dispenser for every application. Exclusive features include “install anywhere” drainless designs, countertop models that fit neatly under overhead cabinets, sanitary dispensing, and sparkling water.

When you buy a Follett dispenser, you are buying Follett’s commitment to quality, durability, and unsurpassed performance. Welcome to the Evolution of Refreshment!

WATER**

Chewblet ice,
water, and optional
sparkling water
in one dispenser.

WATER

7 SERIES

The 17.5" tall 7 Series is the only ice and water dispenser designed to fit under overhead cabinets. All 7 Series models feature 7 lb of ice storage in a compact footprint to provide the maximum amount of ice in a minimal space.

7 SERIES UNDERCOUNTER

The 7 Series undercounter models, available in both standard height and ADA height to fit under 34" high counters, can easily replace 15" wide open bin undercounter ice machines for more sanitary dispensing of ice.

15 SERIES

15 Series ice and water dispensers are nearly identical to the 7 Series, but are slightly taller and hold 15 lb of ice in storage for higher-volume applications.

Features and Benefits

Powerful

Efficient, air-cooled ice machine produces up to 125 lb daily of Chewblet ice

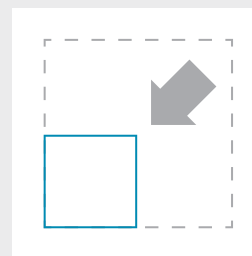

Sparkling

Select models feature cold sparkling water in addition to cold, still water and Chewblet ice

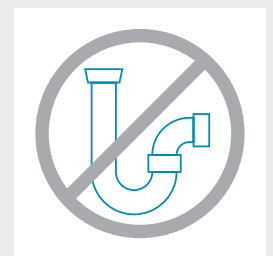

Sanitary

Capacitive touch dispenses directly into your cup to avoid contamination caused by scoop-type machines. All Follett dispensers are certified by NSF.

Compact

Less than 15" wide and 23" deep, Follett 7 and 15 Series dispensers deliver the most ice available anywhere in such a small package

Drainless

Installs anywhere a 1/4" water line can be run, eliminating the installation costs and hassles associated with drains

Freestanding Models

Both 7 and 15 Series models are available with a matching base for additional installation flexibility (shown with optional 6" legs)

Antimicrobial

Key components protected with silver-based antimicrobial to inhibit growth on treated surfaces

Leak detection

Sensors in the base protect the machine from water leaks

Sustainability

Uses up to 50% less electricity and up to 70% less water to produce ice than similar-sized, cube-type ice machines

8.5" dispense height

Fits most commonly used drinking cups and glasses

Removable drip tray

Alerts you when drip tray is full; snaps in and out easily

Fully assembled

Requires just two easy connections for standard plug-in 115V electric and ¼" water line

Optional filtration available

Choose from a number of Follett internal or external filter options designed for ice machine use

Energy efficient

Meets the Consortium for Energy Efficiency (CEE) Tier 2 specifications for highly efficient ice machines

Simple cleaning procedure

Can be cleaned by anyone without the use of special tools in less than 1 hour

12 SERIES

Only 16.12" wide, the 12 Series has the industry's most compact footprint for a 425 lb per day ice and water dispenser and offers 12 lb of ice storage

25 & 50 SERIES

Offering 25 lb and 50 lb of ice storage to match with the 425 lb per day production for higher-volume applications

110 SERIES

In addition to offering 90 lb of ice storage for servicing large applications, the 110 Series, like the 25 and 50 Series, features a removable ice making module for ease of service and replacement

Features and Benefits

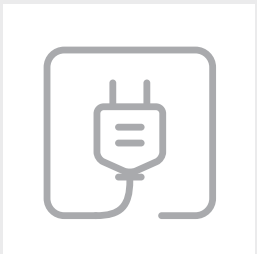

Powerful
Up to 425 lb of ice per day – over 17.5 lb per hour – of Chewblet ice production

Modular
25, 50, and 110 Series all feature removable ice modules for ease of service

Sanitary
One-hand lever or SensorSAFE™ infrared dispense eliminates unsanitary scooping of ice

Efficient
Continuous ice making process uses less electricity and water and meets Consortium for Energy Efficiency Tier 2 specifications

Easy to Service
Semi-automatic cleaning and sanitizing process reduces preventive maintenance time to approximately 1 hour

Freestanding Models

All Symphony Plus™ dispensers are available either as countertop models or freestanding. Freestanding units offer several filtration options with factory-mounted filters conveniently located in the base.

Space-saving designs

The most compact footprints in the category

Sizes and configurations

Countertop and freestanding models available to fit every application from small work groups to facilities with up to 300 employees

Infrared SensorSAFE™ or lever

Dispensing options put ice directly into your cup and avoid contamination associated with scoop-out ice machines

Antimicrobial

Key components protected with silver based antimicrobial to inhibit growth on treated surfaces

Quiet Night™

Sleep mode feature reduces ice machine cycling and energy consumption during off hours

Sustainability

Uses up to 20% less energy and up to 40% less water to produce ice than similar-sized, cube-type ice machines

Filtration

Freestanding units offer several filtration options including factory-mounted filters conveniently located in the base

Automatic self-flushing

Water system regularly expels minerals and impurities for lower maintenance costs and better-tasting ice

Quality

Every Follett dispenser passes rigorous testing and inspections, and is covered by the industry's best warranty and support program

Tempo™ undercounter ice machine bin

The compact 15" ice machine features an industry leading 90 lb of ice per day and 30 lb of storage capacity. Other best-in-class features include an integral drain pump, optional easy-access filter, and semi-automatic cleaning system. An all stainless steel exterior and field reversible door make this a versatile solution for applications where lots of ice is needed in a small amount of space.

Available in both standard height and ADA models.

Ice machines and dispensers to fit every need

Follett LLC has led the industry in designing and manufacturing high quality, innovative ice storage bins, ice storage and transport systems, ice machines, ice and water dispensers, and ice and beverage dispensers for the global foodservice industry. Our continuing goal to reach 100% customer satisfaction has resulted in equipment that provides outstanding innovation and design excellence to meet the specific needs of each customer. We are dedicated to providing the most customer-oriented service in the industry.

THE FOLLETT ADVANTAGE

Chewblet ice

Customer-preferred Chewblet ice makes all drinks more enjoyable and promotes better hydration.

Sparkling water

Delicious sparkling water is an option for select 7 and 15 Series dispensers.

Filtration systems

Follett offers a complete line of filtration systems designed for use with ice and water dispensers.

Simple maintenance

Each ice and water dispenser features a cleaning system designed to minimize the effort required to clean and sanitize the machine.

Built to last

Industry-exclusive features include proprietary jacketed evaporator assemblies to maximize heat transfer and increase efficiency. Follett supports every product with parts availability for 10 years after product discontinuation.

Better sanitation

Sanitary dispensing helps prevent contamination associated with scooping ice by hand. All Follett dispensers also feature antimicrobial protection in critical areas to inhibit the growth of bacteria on treated surfaces.

Warranty and support

Industry professionals specify Follett products because of our exceptional service and support programs including factory-direct technical support, free technical seminars, and comprehensive service manuals and videos.
