Description

Follett refrigerator with Wi-Fi based cloud communication functionality for continuous temperature monitoring and remote alarming. The network interface card (NIC) is a factory-installed option.

Features

- Monitor real-time temperature information from anywhere
- Log in from any computer or device
- Get alerts via email, text or phone
- Receive on-demand and scheduled pre-configured or customized reports
- Take and document corrective action, when needed, for regulatory compliance and quality control
  - Log history available for active cloud service subscriptions
- Manage one or thousands of units from one location
  - Alarm templates to notify the designated people for each unit
- Cloud services provided in partnership with Dickson®
- Subscription from Dickson required to access data on the cloud

Network connection requirements

- The NIC device requires an IEEE 802.11 b/g/n compatible Wi-Fi network to access internet
- The required FollettConnect app must be downloaded for the latest Apple (iOS)/Android software (free)
- Support is provided for the latest and two previous versions of IOS/Android software needed to use the FollettConnect app
- Working Wi-Fi router with access to internet is required to connect to DicksonOne to configure the network connection (subscription required)

Security

- The NIC device utilizes TLS to ensure a secure connection between the device and cloud server, and it supports the following encryption methods:
  - Open (shared) - Not recommended[1]
  - WPA PSK
  - WPA2 PSK/TKIP
  - WPA2 PSK AES
  - WPA2 PSK AES and TKIP

Certifications

UL CERTIFIED Commercial Refrigerator
SAFETY US/CA – SA12646

Freestanding data loggers

- DicksonOne VFC-compliant freestanding display data logger with Wi-Fi and Ethernet capability for use with any refrigerator or freezer (item# 01528512). **Note:** Subscription from Dickson required to access data on the cloud.
- DicksonOne VFC-compliant freestanding touchscreen data logger with Power Over Ethernet and Wi-Fi capability for use with any refrigerator or freezer (item# 01528538). **Note:** Subscription from Dickson required to access data on the cloud.
- Ambient temperature and humidity sensor, right angle, for use with DicksonOne freestanding display and touchscreen data loggers (item# 01539691)

[1] Any "splash" or login screens required for network access are not compatible with the device. Example: Typical hotel or guest Wi-Fi networks.
