- Computed on cubic volume of bin. Does not reflect cart capacity or voids that can occur due to pyramiding
- Lower door assembly easily removed for installation access.

 Special top required for ice machines weighing more than 1000 lb (454 kg). Add 0.5" (1.27 cm) to height. Contact factory. Note: Not available for model DEV500 and DEV700.
- Required clearance for installation access through doors (may require removal of lower door assembly). Follett recommends installation of a floor drain with grate with all ice storage bins. Consider cart positioning when locating the drain. Clearance required to pull cart from below bin minimum 36.00" (91.4 cm), optimal 40.00" (101.6 cm). DEV500SG-30, DEV860SG-48 and DEV1080SG-60 do not have upper inspection window. Bagger kit includes 250 plastic bags of 10 lb (4.5 kg) capacity.
